Objective

Passionate and motivated front end developer with 2 years of experience and knowledge of HTML, CSS, JavaScript, and React seeking an opportunity to contribute my coding skills and creativity to a dynamic web development team. Committed to continuous learning and staying on level of industry trends to deliver high-quality and innovative solutions in a collaborative team environment. I am eager to bring my unique perspective to a forward-thinking team.

Skills summary

- HTML
- CSS
- Bootstrap

- JavaScript
- React (Vite, Redux, Formik)
- Jest/Vitest

- UI development
- GitHub
- Postman, VSCode

Projects

Yamb (Game App)
- Designed a clean and intuitive user interface for playing a game in browser.
- App is created using **React** with implementing React **Redux** for state management.
- App required logic calculation to capture best results.
- Styled using **CSS**.

Food planner App
- Designed a CRUD app for personal food and recipe control and daily intake control.
- User can create their own credentials, update or delete their data.
- For this app I used publicly accessible end points to host data base.
- App is created using React **Vite**, **Formik** (for login and register from).
- Made HTML calls to obtain data from third-party **API**.
- Created simple code tests using **Vitest**.
- Styled using CSS.

Hikers quiz
- Designed a quiz app for hiker's web page where user can test his knowledge in geography.
- App is created using **HTML**, CSS and Vanilla **JavaScript**.
- Made HTML calls to obtain data from third-party API.
- This project was part of larger web site where collaborated with back end developer.
- Styled using CSS.

Portfolio web page
- Designed my portfolio web page where showcase my previous work.
- App is created using React Vite.
- Styled using **Bootstrap** and CSS.

02/2022-   **Frontend Developer**
Present   **Freelancer**

Over the past two years, I've gained valuable experience working on several projects that have honed my skills in web development and user interface design. My key projects are listed above.
These projects have not only enhanced my technical skills but also provided valuable experience in collaborating with team members and delivering user-centric solutions.

09/2016-   **Designer IV**
Present   **General Atomics**

Designer
As a member of liaison group, I was involved in different parts of **Aeronautical System** inside **General Atomics** providing high quality work as mechanical designer/drafter.

05/2016-   **Designer/Freelancer**
Present   **Global Ocean Design**

Designer
Played essential role in company that produces **underwater** equipment and instruments as freelance mechanical designer.
